

## Annual Default Prevention Grant Meeting 2012

The annual meeting was held on May 1, 2012. The meeting was opened with a welcome from MDHE and then a representative from the Secretary of State's office discussed securities and why they needed to be regulated, who the regulators are and much more. Two institutions shared their best practices for default prevention/financial literacy and a third was represented by a student worker who shared her perspective of student loans and default prevention. The details of requesting how to submit a reimbursement request were discussed and time was then made available for institutions to network.

### Agenda
